

# Y12 Summer - Maths Introduction

---

## **The Focus:**

We, in the maths department here at UTC, are looking forward to you joining us in September and well done for making the excellent decision to study maths at A level.

In preparation for the course we are asking students to complete some work during the summer. Starting the A-level course can be quite demanding and it will help to be clear on some of the key ideas from GCSE.

## **What you can do:**

This year we are asking for this to be completed online.

Please go to <https://diagnosticquestions.com> and sign up, by creating your own account.

Once signed in, input this class code **SC-H1IG8CMV1BEJ** under the 'My Classes' tab.

There will be one quiz each week consisting of 10 questions, please have a pen and paper to hand as some working out will need to be completed.

To allow students to plan these quizzes around their holidays two (of the six) quizzes will be open each week and each quiz will be available to complete for two weeks.

**Have fun, stay motivated, and we'll see you in September - UTC Sheffield – Maths Department**
